3 or Higher on Benchmark 3

Score of Proficient / On Track / Mastered on Previous Year's TCAP

Attendance (satisfactory and/or not chronically absent)

Work Ethic (score of 4)

Teacher Recommendation

STAR 80th Percentile

Once enrolled, students must remain in the advanced course unless the parent requests, in writing, that their student be removed from the course. Such requests must be submitted no later than the second Friday following the end of the first grading period.

After 30 days of instruction, the student's teacher may determine that the student should be removed from the class based on the student's performance in the class. After conferencing with the parent and student, the teacher will submit a written request to place the student in an alternate course.
